6th August 2026

Dear Hiring Team,

I am writing to express my interest in the Full Stack Developer position at your organization. As a MERN stack and Next.js developer with hands-on experience building AI-powered applications using modern LLM APIs, I am excited about the opportunity to bring my technical skills and problem-solving mindset to your engineering team.

During my Full Stack Developer internship at Excerpt Technologies, I contributed to **JobGateway**, a LinkedIn-style job portal with a four-module architecture spanning a Student Portal, a social Explore layer, a Company Panel, and an Admin Dashboard. My work covered the full stack: real-time chat and notifications with Socket.io, JWT-based authentication, AI-powered candidate scoring, and an integrated interview system, sharpening my ability to ship production-grade features end to end.

I have also independently built projects that reflect my growing expertise in modern web and AI technologies. **StreamChart** is a real-time AI chat app that streams responses token-by-token via Server-Sent Events, paired with a custom React hook and Zustand for a smooth, ChatGPT-style experience. **DocBot** is an intelligent PDF chatbot built on a full RAG pipeline using Ollama for embeddings and Pinecone for vector search. I have also built **AuthKit**, a production-grade auth system with JWT access and refresh token rotation, and **LiveCollab**, a real-time collaborative workspace powered by Socket.io.

I hold a Diploma in Computer Science Engineering from Karnataka Govt Polytechnic and have completed multiple Infosys Springboard certifications in HTML5, CSS3, JavaScript (ES6), React.js, and Bootstrap. I am comfortable with Git, GitHub, Vercel, Postman, and CI/CD workflows, and I genuinely enjoy testing and deploying applications that solve real problems for real users.

I would welcome the opportunity to discuss how my background in full-stack development and applied AI can contribute to your team. Thank you for considering my application; I look forward to speaking with you further.

Sincerely,

Shyam Shree

OBJECTIVE

Full Stack Developer skilled in the MERN stack and Next.js, with experience building AI-powered chat applications using modern LLM APIs. Passionate about creating fast, responsive, and user-friendly web applications, and committed to writing clean, scalable code for impactful, real-world projects.

EDUCATION

KARNATAKA GOVT POLYTECHNIC

DIPLOMA IN CSE

2026 | Mangaluru, Karnataka

CGPA: 7.72 / 7.5

MCKC HIGH SCHOOL

CLASS 7.5TH

2019 | Kollegala, Karnataka

Percentage: 79.36%

SKILLS

Frontend & Next.js

React.js • React Hooks • Tailwind CSS • Next.js • App Router • Server Components • Server Actions

Backend & Auth

Node.js • Express.js • REST APIs • Axios • JWT • bcrypt

Database

MongoDB • Mongoose

AI / LLM

OpenAI API (Groq) • SSE • RAG • Ollama • LangChain (basic)

Tools & Deployment

Git • GitHub • Vercel • Postman • VS Code • Render

DSA

Arrays • Strings • Linked Lists • Hashing • Sorting & Searching • Time/Space Complexity

CERTIFICATIONS

- HTML5 – Infosys Springboard - 2025
- CSS3 – Infosys Springboard - 2025
- JavaScript (ES6) – Infosys Springboard - 2025
- React.js – Infosys Springboard - 2025
- Bootstrap – Infosys Springboard - 2025

INTERESTS

- Full Stack Development
- Testing and Deployment
- Open Source Collaboration
- Designing App Layouts

EXPERIENCE

JR SCHOOL | NEXTJS, CLERK, CLOUDINARY, MONGODB 2026

- Built a responsive school website with interactive event calendars and dynamic content loading
- Improved communication efficiency by 40% through streamlined interfaces and better information access
- Link: [junior-technical-school-197z.onrender.com](#)

JOBGATEWAY | REACT, NODE.JS, EXPRESS.JS, MONGODB 2026

- LinkedIn-style job portal built during Full Stack Developer internship at Excerpt Technologies; four-module architecture – Student Portal, Explore (social layer), Company Panel, Admin Dashboard
- Unique features: short-form video/reels feed, dedicated Blue Collar listings, AI Assistant for Government job recommendations
- AI-powered candidate scoring with an integrated interview system
- End-to-end build covering resume creation, real-time chat/notifications (Socket.io), auth (JWT), and billing
- Link: [job-gateway.vercel.app](#)

PROJECTS

STREAMCHART | NEXT.JS, ZUSTAND, GROQ AI API, SSE 2026

- Real-time AI chat application powered by the OpenAI API
- Streams responses token-by-token via Server-Sent Events from a Next.js route handler
- Custom useStream hook paired with Zustand delivers a smooth, ChatGPT-style typing experience
- Link: [03-stream-chat.vercel.app](#)

DOCBOT | NEXT.JS, GROQ AI API, RAG, SSE 2026

- Intelligent PDF chatbot built on a full RAG pipeline using Ollama for embeddings and Pinecone for vector search
- Documents are chunked, embedded, and indexed for fast semantic search
- Context-aware answers streamed back in real time via GroqAI using Server-Sent Events (SSE)
- Link: [docbot.vercel.app](#)

LIVECOLLAB | NEXT.JS, SOCKET.IO, MONGODB 2025

- Real-time collaborative workspace with live document/board editing across multiple users
- WebSocket-based sync (Socket.io) for instant updates
- Graceful fallback handling when API keys are missing, with Docker and CI/CD setup
- Link: [livecollab.vercel.app](#)

AUTHKIT | NEXT.JS, JWT, MONGODB, ZOD, BCRIPT 2026

- Production-grade authentication system with JWT-based access and refresh token rotation
- Secure middleware-protected routes and role-based access control
- Built as a reusable auth foundation for full-stack Next.js applications.
- Link: [auth-kit.vercel.app](#)

URL SHORTENER | EXPRESSJS, NANOID, MONGODB 2026

- Fast link-shortening tool with custom slug generation
- Real-time click-analytics tracking
- Instant redirect handling via Next.js API routes, backed by MongoDB for reliable URL storage at scale.
- Link: [url-shortner-backend-plyv.onrender.com](#)

PORTFOLIO | NEXT.JS, TAILWIND CS, REACT ICONS 2026

- Responsive personal portfolio built with Next.js and Tailwind CSS
- Smooth UI transitions and full SEO optimization
- Link: [shyam-portfolio-nine.vercel.app](#)
